

Advanced ESR Methods in Polymer Research

Shulamith Schlick, Book Editor

Professor of Physical and Polymer Chemistry
Department of Chemistry and Biochemistry
University of Detroit Mercy
Detroit, Michigan 48221, USA

ISBN 9780471731894. Expected publication date: September 2006

TABLE OF CONTENT

Preface
The Editor
Contributors
Dedication

Part I: ESR Fundamentals

Chapter 1. Continuous-Wave (CW) and Pulsed ESR Methods, by G. Jeschke and S. Schlick

Chapter 2. Double Resonance ESR Methods, by G. Jeschke

Chapter 3. Calculating Slow-Motion ESR Spectra of Spin-Labeled Polymers, by K.A. Earle and D.E. Budil

Chapter 4. ESR Imaging, by S. Schlick

Part II: ESR Applications

Chapter 5. ESR Study of Radicals in Conventional Radical Polymerization Using Radical Precursors Prepared by Atom Transfer Radical Polymerization (ATRP), by A. Kajiwara and K. Matyjaszewski

Chapter 6. Local Dynamics of Polymers in Solution by Spin Label ESR, by J. Pilar

Chapter 7. Site-Specific Information on Macromolecular Materials by Combining CW and Pulsed ESR on Spin Probes, by G. Jeschke

Chapter 8. ESR Methods for Assessing the Stability of Polymer Membranes Used in Fuel Cells, by E. Roduner and S. Schlick

Chapter 9. Spatially-Resolved Degradation in Heterophasic Polymers from 1D and 2D Spectral-Spatial ESR Imaging Experiments, by S. Schlick and K. Kruczala

Chapter 10. ESR Studies of Photo-Oxidation and Stabilization of Polymer Coatings, by J.L. Gerlock and D. Bauer

Chapter 11. Characterization of Dendrimer Structures by ESR Techniques, by M. F. Ottaviani and N. J. Turro

Chapter 12. High Field ESR Spectroscopy of Conductive Polymers, by V. I. Krinichnyi
